

The foundation of Trinity Academy's success is that we are dedicated to partnering with our families for the education of their students. Because of this dedication, our entire application process is designed to make sure new families know who we are and what we believe.

Trinity Academy holds biblical views on human sexuality and gay marriage and we want prospective families to understand that. We feel that this is only fair given the disagreement and discord in our society over such issues. It is then up to the family as to whether they feel they can partner with Trinity and support these biblical Christian views.

Trinity would not and has not denied admission to a student simply because they have a sibling who is gay. Neither would we necessarily deny admission to a student with same sex attraction. We do not condone sexual activity of any kind for our students whether heterosexual or homosexual.

Again, Trinity's whole intent is to make sure families know what we believe so we can partner together successfully for the good of the students.
